DETAILED ACTION

1. Claims 1-51 are currently pending.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 19, 2008 has been entered.

Claim Objections – 37 CFR § 1.75

3. Claims 27, 40 & 51 are objected to under 37 CFR § 1.75(a) for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) Claim 27 recites a step of “detecting the light beams” including three sub-steps. However, these sub-steps are not positively recited and the interrelation between these sub-steps is not clear. The examiner suggests amending the last step of claim 27 as follows:

--detecting the light beams that are reflected from a surface of the optical storage medium, wherein the detecting comprises:

moving an access unit three-dimensionally in relation to a pivot point on one end to focus and track said first and second light beams;
guiding said first light beam transversal directly to said data tracks of the optical storage medium three-dimensionally in accordance with the movement of said access unit; and

receiving the reflected beams of said first light beam or said second light beam from said data tracks of the optical storage medium three-dimensionally in accordance with the movement of said access unit.--

(b) Claims 40 & 51 have similar deficiencies as claim 27. The applicant is requested to amend claims 40 & 51 similar to the examiner's suggestion regarding claim 27 above.

(c) Furthermore, in regard to claim 40, it should be noted that the limitations in lines 16 through the last line **SHOULD NOT BE INDENTED** under the step of "detecting the light beams", as they are not part of the detecting step.

Allowable Subject Matter

4. Claims 1-51 are allowable over the prior art of record.

5. The following is a statement of reasons for the indication of allowable subject matter:

In regard to claims 1, 27 & 50, see applicant's arguments on page 15, last paragraph through page 17, first paragraph.

In regard to claims 2 & 40, see the previous Office actions. Claim 51 has similar allowable limitations as claim 2.

Claims 3-26, 28-39 & 41-49 are dependent upon allowed base claims.

Conclusion

6. This application is in condition for allowance except for the objections under 37 CFR § 1.75(a) noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
